

HEPARIN Sodium Injection, USP

Available in:

1,000 USP units per mL

- 1,000 USP units per mL
– Vials
- 2,000 USP units per 2 mL
– Single-dose vials, preservative-free
- 10,000 USP units per 10 mL
– Multi-dose vials
- 30,000 USP units per 30 mL
– Multi-dose vials

5,000 USP units per mL

- 5,000 USP units per mL
– Vials
- 50,000 USP units per 10 mL
– Multi-dose vials

10,000 USP units per mL

- 10,000 USP units per mL
– Vials
- 40,000 USP units per 4 mL
– Multi-dose vials

20,000 USP units per mL

- 20,000 USP units per mL
– Multi-dose vials

HEPARIN with Preventiv Measures™ Packaging and Labeling

Connecting the Dots Between Critical Touch Points

SAGENT's Preventiv Measures™ Packaging and Labeling helps promote immediate drug and dose recognition for every medical professional who handles a medication – from the pharmacy to the patient's bedside and at every point in between.

A Unique Color for Each Total Strength of HEPARIN Sodium Injection, USP

Helps caregivers distinguish among HEPARIN products; minimizes the risk of medication confusion

- Only SAGENT has designated a unique color for each total strength.
- We're color coordinated; the cap, label and carton match for each total strength.

THIS UNIQUE ATTRIBUTE HELPS:

Total Strength Distinct by Color: Concentration per mL Coordinated by Color

Creates concentration "families" that have a common concentration color

- Only SAGENT provides a consistent visual cue for drug concentration and a unique color for each total strength.
- This feature assists recognition for product handlers wherever HEPARIN goes.

THIS UNIQUE ATTRIBUTE HELPS:

For example:
Orange is common to 5,000 USP units per mL;
yellow is common to 1,000 USP units per mL.

Labels and Caps Stand Out on the Shelf and in the Drawer

Makes it easy to identify the right product and makes it easier to see when something doesn't belong

- SAGENT has maximized all key identifying information on the vial face for ease of reading.

- Easy-to-read drug name and dosage information
- Fill volume directly below concentration
- Die-cut "NOT FOR LOCK FLUSH" cautionary strip on vial face
- Vial labels include a bar code to facilitate scanning.
- LATEX-FREE

THIS UNIQUE ATTRIBUTE HELPS:

Full-color Cartons Simplify Storage and Stocking

Enables immediate drug identification right out of the box and on every side of the box

- Only SAGENT displays the following on every side:

- Drug name
- Concentration
- Fill volume
- Pictures of vials
- "NOT FOR LOCK FLUSH" cautionary strip
- Cartons include bar codes in two places for easy scanning.

THIS UNIQUE ATTRIBUTE HELPS:

Our Approach to Safety is Comprehensive™

An error can be made at any time...by anyone...anywhere along the way. That's why SAGENT's Preventiv Measures™ Packaging and Labeling strives to reduce this risk for each caregiver every step of the way.
