Our Approach is **ComprehensIV**™

PreventIV Measures is SAGENT's comprehensive, user-driven and patient-centered approach to product packaging and labeling that can help prevent medication errors.

SAGENT's **PreventIV Measures** helps promote immediate drug recognition for every medical professional who handles a medication – from the pharmacy to the patient's bedside and at every point in between. With thoughtful, distinctive label and packaging designs differentiating each of our specialty injectable products, we are striving to make accurate drug selection an easy and obvious choice. Because we believe Safety is CumulatIV™...it all adds up.™
